

Press Release

ATC 800R NPO Ceramic Ultra Low ESR MLCs Are Now Available For Purchase On ATC's Shopsite

July 29, 2014, Huntington Station, NY ----- ATC is pleased to announce that their 800R NPO Ceramic Ultra-Low ESR MLC Series is now available for purchase online through ATC QUIK-Buy® on their shopsite. These capacitors are packaged on tape and reel in quantities of 500 (\$1023) and 1000 (\$1600). Customers may also order free samples of snip tape. ATC's 800 Series Engineering Design Kits for prototyping are also available online. Visit www.atceramics.com/order-products.aspx

The 800R Series is manufactured in one of ATC's signature case sizes: case R (L = 0.070", W = 0.090") with a capacitance range of 1 pF to 100 pF at 500 WVDC.

The 800R Series is designed to provide superior heat transfer in high RF power applications from UHF through microwave frequencies. This product is designed with new NPO low loss rugged dielectric and a silver-rich electrode system. The combination of ATC's proprietary dielectric material and electrode formulations makes this series highly desirable for high RF power applications.

If you have any questions regarding this product offering, please contact ATC Sales or RF Applications Engineering.
